## Education:

### Lund University

Master of Industrial Design  
August 2016 - 2018  
Sweden

### Georgia Institute of Technology

BS Industrial Design, Highest Honors  
August 2011 - May 2015  
United States

## Experience:

### Trimble - Master Thesis Student

January 2018 - Present

Conducting design research to make accessories for more comfortable work in wet or cold weather while using Trimble Geospatial Equipment.

### APSYS International - Technical Writer

June 2017 - August 2017

Produced high-quality documentation in Photoshop for the APSYS knowledgebase. Managed Swedish and English translations for interface text and user documentation.

### 2point5 – Partner / Industrial Designer

May 2015 - November 2015

Partner in a four person design and fabrication company. Created concepts and products for a variety of companies ranging from small start ups to Redbull, Iris Worldwide, Lamborghini, and Adidas. Led all digital fabrication and design.

### Material6 and Spec.Dock – Industrial Designer

September 2012 - April 2015

Designed multiple mobile phone accessory products, packaging, and website collateral. Worked with manufacturers to take concepts from a sketch to mass production through injection molding.

### M2SYS Technology – Industrial Designer

June 2013 - August 2014

Designed the M2-RapidCheck™10-29, a multi-modal mobile biometric device. Multiple phases included building fully functioning tradeshow prototypes, user experience, and working with suppliers for pre-production parts.
